Global expression profile UP-regulated genes in the RVF and dengue samples

sample

apolipoprotein D, putative [Source: VB Community Annotation] cecropin anti-microbial peptide [Source: VB Community Annotation] Clip-Domain Serine Protease family B. [Source: VB Community Annotation] Clip-Domain Serine Protease family B. [Source: VB Community Annotation] clip-domain serine protease, putative [Source:VB Community Annotation] C-Type Lysozyme (Lys-A). [Source: VB Community Annotation] Serine Protease Inhibitor (serpin) likely cleavage at K/F. [Source: VB Community Annotation sodium/chloride dependent neurotransmitter transporter [Source:VB Community Annotation] sodium-dependent phosphate transporter [Source:VB Community Annotation]
